Subject: signage

I've checked with one sign company about making three or four 2' X 3' metal signs stating Public Health Museum at Tewksbury Hospital (# miles) and an arrow. Was quoted \$85 each or \$95 ea for reflective coating which would be easier to see at night. I'm also checking to see if we need approval for towns to post signs on public property. Is the board willing to spend this kind of money? I will get a another quote but I'm sure we are in the ballpark.Thanks.
